

**GATI-KWE awarded for its efforts in the category of
“Achievement in Continuous Improvement”
at the 2nd Asia Manufacturing and Supply Chain Summit**

Hyderabad February 1, 2013 - GATI-Express Distribution and Supply Chain Solutions was awarded for its efforts in the category of **“Achievement in Continuous Improvement”** at the 2nd Asia Manufacturing and Supply Chain Summit, Mumbai.

GATI-KWE has been a strong believer in innovation and strives to go beyond conventional boundaries to deliver quality service to its customers. GATI-KWE has also implemented various innovations such as Pre-planning tools, Customer site process improvements (using mobile platform), Network Monitoring Cells (NMC) etc. to help enhance the customers experience. With these processes the customer gets live updates about the status of the shipment which gives the customer a sense of security. These implementations have also helped reduce the process time.

The Asia Manufacturing Supply Chain Summit (AMSCS) held on January 23rd & 24th in Mumbai aims to bring together supply chain leaders across verticals with a view to innovate, strategize and uncover strategy and best practices to help one another in

Every year over 200 leading manufacturers & decision makers across different value chains of prestigious organizations are convened at the summit. The idea is to equip each other with the latest information, impact of economic trends & strategies that can transform your organization.

Commenting on the occasion **GATI-KWE President, Ms. Chitra Shinde** said “We are extremely honoured to receive this award. The Asia Manufacturing Summit helps us gain an insight on the latest developments in the world of supply chain & logistics. It also helps us to identify & implement best practices & lean management systems across the world. Various innovations have been implemented in the recent times, which have brought about significant process improvements that has helped us reduce process times and significantly improve customer experiences
