For consistency in excellence, Mr. G S Ravi Kumar of Gati was felicitated with the CIO Hall of Fame Award in addition, by virtue of being the perseverant winner of the CIO 100 Award for the fourth consecutive year. He is been awarded for developing one-of-its-kind innovation in the logistics industry, which is a cost-effective mobile solution to tally the number of packages being loaded or unloaded at any given distribution centre at any given time. Mainly consisting of a tablet and a wired barcode scanner, the device scans the codes of all packages being sent or received, and alerts employees of discrepancies such as misrouted or missing packages, if any. The previous way of doing things involved a great deal of manual intervention, which made the very process cumbersome and prone to errors. But the usage of barcode scanners and tablets has increased the accuracy level to 100 percent. On the whole, this solution has proved to be the best cost-effective way to increase efficiency and accuracy at Gati.

This year's selection was made out of total nominations of 750 leaders.
