#Budget2024: Budget boosts logistics industry's sustainability goals

Sustainable investment, financial prosperity: budget charts India's path to 2029.

by Staff Writer | February 1, 2024

Anish Mathew, Chief Financial Officer (CFO), Allcargo Gati Limited

change with Vietnam's Tra Vinh Green Hydrogen project

"In the budget, the government has laid the roadmap for inclusive and sustainable economic growth with a focus on GDP—governance, development, and performance. The thrust on advancing EV infrastructure and driving the energy transition aligns seamlessly with the logistic industry's goal to minimise operational impact on the environment.

The prioritisation of skilling the youth to build efficiency and global competitiveness in MSMEs will foster broader economic growth.

As we look ahead, the next five years hold immense potential for the growth and progress of the country, and the budget aptly outlines the framework. This period presents an exciting opportunity to explore the convergence of sustainable investment and financial prosperity."
